SLIDE CONCEPT

An attraction that performs across all seasons

# Inuit, a specialist in alpine resort toboggan runs

## WHAT SETS US APART

Seamless integration at the heart of the resort's ski area and lifestyle spaces.

Fun, accessible trails designed for the whole family.

Tailor-made courses, designed around terrain and operational constraints to ensure a fully controlled experience.

Built-in safety, full compliance, and long-lasting installations.

# The toboggan trail: a strategic attraction for your resort

## STRATEGIC BENEFITS

A family-friendly activity for non-skiers, broadening the resort's appeal.

A year-round attraction that helps stabilize attendance beyond the snow season.

The trail leverages natural terrain and makes optimal use of underutilized areas of the resort.

An image-boosting and diversification tool, designed with a sustainable vision in response to climate challenges.

An intergenerational experience that enhances the resort's appeal and fosters a welcoming atmosphere.

A key infrastructure that energizes prime areas (ski fronts, dedicated zones, and prepared slopes).

# THE INUIT APPROACH

## PROJECT PHASES

### SITE ANALYSIS

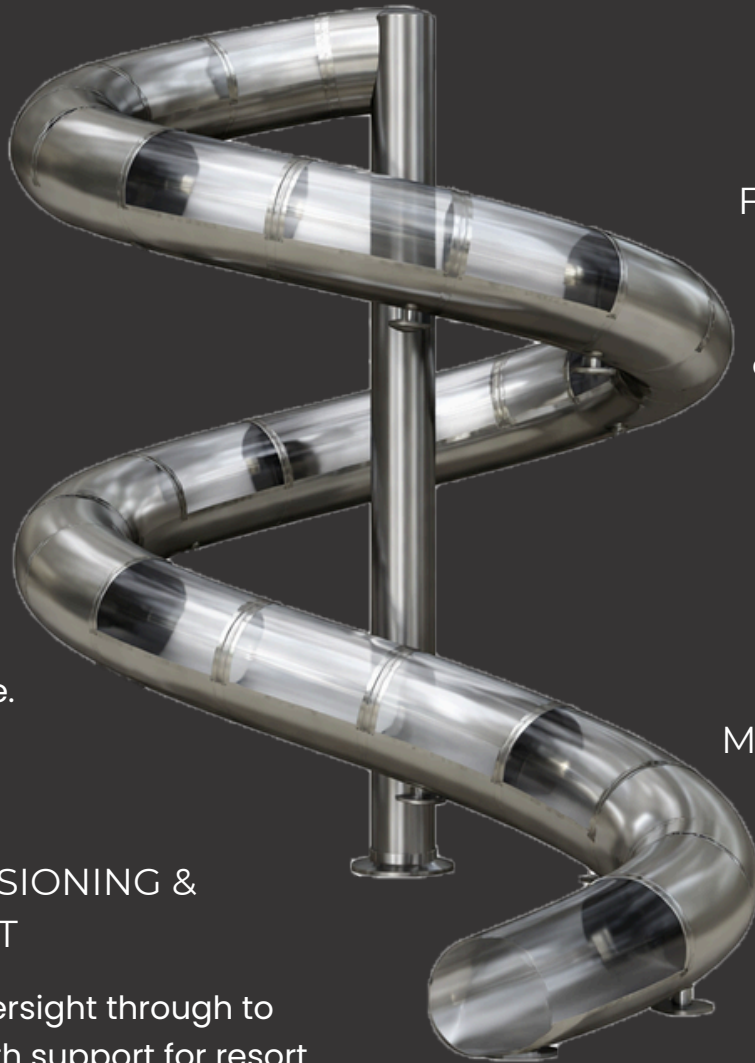

Study of the terrain, traffic flow, environment, and resort objectives.

### CUSTOM DESIGN

Course designed and integrated into the landscape for a smooth, controlled ride.

### COMMISSIONING & SUPPORT

Project oversight through to launch, with support for resort teams.

### FEASIBILITY STUDY

Technical, regulatory, and budgetary analysis to secure the project from the outset.

### MANUFACTURING & INSTALLATION

Production of components and on-site installation in full compliance with standards and timelines.

# Why resorts choose Inuit

## MOUNTAIN EXPERTISE

A deep understanding of terrain, operational, and safety constraints specific to resorts.

## SAFETY & COMPLIANCE

Installations designed in full compliance with regulations and sustainability standards.

## TAILOR-MADE DESIGN

Each trail is designed to integrate seamlessly with the existing resort and meet its specific objectives.

## COMPREHENSIVE OVERSIGHT

A single point of contact, from study to commissioning.

Let's explore the potential of  
your site together.
